

THE REPUBLIC OF UGANDA

THE REPUBLIC OF UGANDA  
MINISTRY OF TOURISM, WILDLIFE AND ANTIQUITIES  
STATEMENT ON THE EBOLA OUTBREAK

The Ministry of Health released a statement informing the public of an outbreak of the Ebola Hemorrhagic Fever in Luwero District on Thursday 14th November 2012. The health experts have taken measures to contain the situation.

Fears expressed by some travelers arising from the news of this outbreak. In this regard, we would like to assure all travelers that the Ministry of Health has taken all the necessary measures to contain the situation and the World Health Organization has not recommended travel restrictions to Uganda.

Uganda remains the destination of choice and we encourage and welcome the world to visit Uganda and urge fellow Ugandans to travel and enjoy the Pearl of Africa.

We reiterate government's commitment to support the Ministry of Health and all affected communities in fighting this outbreak and additional information in this regard will be circulated as it becomes available.
